Stylish

Designed for comfort

Most consumers today are looking for an air conditioning system that combines the best of performance and design. With Stylish, Daikin balances function and aesthetic to create an innovative product that suits any interior.

Why choose Stylish?

Stylish brings together excellent design and technology to deliver a total climate solution for any interior. Measuring only 189 mm, Stylish is the thinnest unit on the market in the design segment for wall mounted units and uses innovative features to achieve the best in comfort, energy efficiency, reliability and control.

GOOD DESIGN
AWARD 2017

Design

Award-winning design

Inspired by its predecessors, Daikin Emura and Ururu Sarara, Stylish earned the Good Design Award and iF Award for its innovative look and functional capabilities. These awards recognise Stylish for its ability to achieve new standards of comfort and energy efficiency in the HVAC-R industry.

Stylish design benefits

- > Users can choose from four distinct colours (white, silver, black and blackwood)
- > Curved corners create an unobtrusive and space-saving design
- > Thin dimensions make it the most compact design unit on the market

✓ Comfort

Intelligent and efficient design

- > Coanda effect optimises room temperature distribution
- > Improved fan offers high-efficiency with low sound levels down to 19 dBA
- > Perfect indoor air quality: the flash streamer captures viruses and allergens leaving you with a more clean indoor environment
- > The fireplace logic keeps the fan running to have an even temperature throughout the room when another heating device (e.g. fireplace or oven) is in operation (FTXTA-AW only)

The Coanda effect

Already present in the Ururu Sarara, the **Coanda effect** optimises the airflow for a comfortable climate. By using specially designed flaps, a more focused airflow allows a better temperature distribution throughout the whole room.

How it works

Stylish determines the airflow pattern based on whether the room needs heating or cooling. When Stylish is in heating mode, two flaps will direct air downward (vertical airflow), while in cooling mode the flaps will move air upward (ceiling airflow).

By creating two different airflow patterns, Stylish prevents draughts and establishes a more stable and comfortable room temperature for occupants.

Energy efficiency

Up to **A+++** in cooling

Up to **A+++** in heating

Reliability

BLUEEVOLUTION

Higher energy efficiency and lower environmental impact with R-32 refrigerant

Optimised heating range available: capacities guaranteed down to -25 °C
